

## Electric Vehicle (EV) Charging Incentives

Investing in EV charging is more affordable than you think. Governments and utilities offer an array of tax credits, rebates and grants that can help put you on the road to a more sustainable future.

To find out what incentives you qualify for, simply select the type of product you're interested in and choose your location from the dropdown menu below.

### Home EV Charging Incentives in Southern California

- The [Burbank Water and Power \(BWP\) Electric Vehicle Charging Station Rebate](#) offers rebates of \$500 for ChargePoint Home. Rebates are limited to one per BWP residential account. Charger must be new and have a purchase and installation date of July 1, 2015 or later. Application must be submitted no later than four months from the date of purchase and are accepted on a first-come, first-served basis until rebate funds are exhausted.
- The [Glendale Water & Power EV Rebate Program](#) offers a \$500 rebate to single family residents who install a ChargePoint Home. Rebate applications will be accepted subject to availability of funds.

[Los Angeles Department of Water and Power \(LADWP\) Charge Up LA!](#) is offering rebates of up to \$500 for the purchase of a qualified Level 2 (240-volt) charger. LADWP also offers special rate plans for charging EVs. Applications for this first-come, first-served rebate opportunity will be accepted until rebate funds have been exhausted.

- The [Pasadena Water and Power \(PWP\) PEV Charger Rebate Program](#) provides a rebate of up to \$400 to PWP residential customers who notify PWP about the purchase or lease of a qualifying EV and install a ChargePoint Home at the address shown on the PWP electric account. Applications for this first-come, first serve rebate opportunity will be accepted until rebate funds have been exhausted.
- The [South Coast Air Quality Management District \(SCAQMD\) and Mobile Source Air Pollution Reduction Review Committee \(MSRC\)'s Residential EV Charging Incentive Pilot Program](#) provides up to a \$250 rebate or the cost paid for the charger, whichever is lower. Low-income residents can qualify for a total rebate of \$500 or the cost paid for the charger, whichever is lower.
